Sqlite3, Postgresql

"I'm a 19-year-old Python and JavaScript enthusiast and problem-solver. Currently developing my skills as a programmer, I'm passionate about the art of coding and its transformative potential. My main interests are developing intuition. Telegram bots, where I continuously and leverage the power of Python to create interactive experiences. By learning the ins and outs of bot development, I was able to contribute to digital conversations and user experience.

Skills

Frontend	Junior
Backend	Junior
